

Tramigo T22 Main Features

Tramigo is a completely new and unique way to track and guard your assets and loved ones. Tramigo T22 combines mobile technology (GSM) with satellites (GPS) and can be used with any mobile phone. No monthly or annual fees, you only need to add a local SIM card and your Tramigo T22 is ready to use.

Tramigo Landmark Data

Up to 10,000 pre-loaded landmarks of your country. Nationwide and regional coverage in 220 countries. User can add customized locations, such as home, office etc.

Find - Location of T22 unit

Check location with SMS / text message - Tramigo replies with text referring to the closest landmark. Tramigo can also report you the nearest three landmarks and send you automated distance or time based location messages.

Automatic Reporting

Monitor speed, trips and create your own zones. Receive automatic alerts to your mobile phone.

Handsfree

T22 has an in-built GSM phone with easy dial to selected numbers.

Personal Assistance Button

SOS / Alert message to multiple receivers.

Double Security - Silent Alarm

Motion detector - Invisible GPS security shield - Personal assistance button.

Portable Design

In-built long life battery; use as a portable unit or with easy installation. Enhanced GPS reception. Use anywhere, roam with quad-band GSM modem.

Tramigo M1 Move*

Install M1Move to your smart phone and monitor your fleet anywhere with ultimate convenience and privacy! All T22 commands are just one keystroke away! Additionally you can visualize the location with MoveMap™ feature or check any T22 location message in Google Maps with detailed TLD landmarks - Google Maps has never been so easy to use.

Tramigo M1 Fleet*

M1 Fleet PC Software and Tramigo T22 bring fleet management and monitoring to a new level. As free software there are no monthly or annual license fees: plug-and-play corporate vehicle and personnel tracking and monitoring made affordable and user-friendly. M1 Fleet is also specifically designed for vehicle recovery and security operations.

* M1 Move and Fleet softwares are tools that enhance the T22, but are not obligatory: T22 can be used with any GSM phone with easy to use commands without any additional software or phone model requirements!
