

T23 Bulk editions are optimized for low cost shipping and are cost-effective for volume fleet management and volume installation cases.

T23 bulk can be ordered with or without the standard 12V immobilizer relay and is perfect for vehicle security and fleet tracking*.

*24V custom voltage regulator for heavy vehicles and Intelligent Immobilizer also available. Contact us for more information.

Volume Installation

Fleet Management

Vehicle Security

Buying in bulk is a cost-effective way for volume installation cases or any other instance where you handle the installation for your customer.

Add the needed accessories according to your need:

T23-ATB The T23 Remote Microphone and Panic Button are not included in T23 bulk editions but may be added using the following order codes. For a complete list of T23 accessories, contact your dedicated Tramigo representative.

T23-S0S

12V Standard immobilizer relay for vehicle security

Using the standard immobilizer relay is the most cost-effective way to add the engine disable feature to Tramigo T23. The 12 Volt immobilizer relay is included in the T23-RS12 version.

The immobilizer relay allows remote ignition or engine disabling via SMS or GPRS from your control center or any mobile phone or tablet.

The T23 12 Volt immobilizer relay is connected to the standard T23 power cabling and is compatible with all 12 Volt systems.

Warranty Note: T23-FG and RS12 are designed for 12V systems. Installing T23 to a 24V system without voltage surge protection voids warranty. Custom voltage surge protectors are available for heavy vehicle use - ask your Tramigo dealer for more info.

Shipping Info

T23 bulk versions are shipped without a retail package for maximum cost effectiveness and come in a protective plastic bag.
